Innovative Hygiene Solutions

TCELL REFILLS CONTAIN MICROTRANS®

A true odor neutralizer. We use only the highest quality essential oils to reinforce the cleanliness of the washroom and image of the facility. They are available in a wide range of customer preferred fragrances from mild to intense for a clean, fresh scent that lasts. Conventional gel systems lose their fragrance intensity over the life of the refill, but TCell remains constant.

Fragrance Intensity Range

Light											Intense
Pure	Wakening Spring	Polar Mist	Crystal	Cucumber Melon	Sugar Cookie	Blue Splash	Mango Blossom	Summer Sorbet	Tropical Sunrise	Vanilla Cream	Citrus

HOW THE TCELL WORKS

The fuel cell creates hydrogen in the fragrance chamber. As each molecule of hydrogen is created it forces an equal volume of fragrance out of the chamber. Natural air flow in the washroom distributes the fragrance throughout the room.

TCell Color Options
